

Prophy Cups, latex-free

Description

We supply prophylactic polishers in different color-coded hardness values and different mounting options for cleaning and polishing dental enamel. A distinguishing quality feature is that they are latex-free, thereby reducing the risk of allergic reactions. Another feature common to all polishers is their smooth outer surface and internal lamellae, which prevent prophylactic polishing paste from spraying off during treatment. We also put a great deal of thought into the drive mechanism. The spray guard on the shoulder of the polisher effectively prevents paste from penetrating into the contra-angle handpiece.

Application

Prophylactic polishers are always used with prophylactic paste. After applying the paste to the cup or directly to the tooth, the dental CA is placed on the tooth and is set in rotating motion.

Properties

- BLUE: Soft, for final polishing of the tooth surface, especially near the gingival sulcus to protect the soft tissue
- PURPLE: Medium, universal hardness for cleaning and polishing
- YELLOW: Hard, for removing severe plaque
- Becht prophylactic polishers are class IIa medical devices and are intended for single use only. All packaging units are shipped non-sterile.
- maximum working speed: 2500 min rpm
- latex free polishers are characterized by a particularly hardwearing material with a low coefficient of friction, which results in only minor warming of the tooth.

Shelf life

60 Months

Form of delivery

REF 200.1	blue, Screw-in cups, 24 pieces
REF 200.3	purple, Screw-in cups, 24 pieces
REF 200.2	yellow, Screw-in cups, 24 pieces
REF 202.1	blue, Snap-on cups, 24 pieces
REF 202.3	purple, Snap-on cups, 24 pieces
REF 202.2	yellow, Snap-on cups, 24 pieces
REF 204.1	blue, mounted on CA, 24 pieces
REF 204.3	purple, mounted on CA, 24 pieces
REF 204.2	yellow, mounted on CA, 24 pieces

Classification

Medical Device, class IIa, rule 5
CE Certificate: HD 601390530001,
TÜV Rheinland LGA Products GmbH, Nürnberg

Accessories

- REF 210** mandrel with screw shank to be mounted on angled handpiece
- REF 212** mandrel with snap-on shank to be mounted on angled handpiece
- REF 480** ProfiGuard RDA 250
- REF 481** ProfiPolish RDA 40
- REF 486** ProphyRepair for cleaning and polishing, final RDA 34
